

## LAWTON KEPT GOAT BUSY

Thirty New Members Taken Into Lady Macabec Lodge. Mrs. Cate Prominent in Work.

A good entertainment as a finale brought about through the efforts of Deputy Great Commander Nora M. Cate, assisted by the members of Hive No. 427 of Lawton, on the evening of May 31, when a class of 30 new members were publicly initiated into the order of the Ladies of the Modern Macabees.

At 8 o'clock p. m. the doors were thrown open and the flag bearers, with the American flags and the colors of the order, marched to their respective stations, immediately followed by officers and guards led by little Catherine Powell as color bearer, after which the meeting was called to order by Commander Kellogg. Under the instructions of Deputy Cate the mistress at arms and sergeant retired to the ante room, returning with 30 of Lawton's most popular young ladies into the hall, when they were duly initiated with full honors into the order.

A fine address was delivered by Rachael A. Bailey, past great commander, followed by Deputy Cate, on the history and good work of the order. In completion the little color bearer marched to the front bearing a tray containing a fine present from the members, also a beautiful bouquet as a token of their appreciation of the good work they had done.

After the closing address by Commander Kellogg, under the strains of Hail Columbia, all departed to their respective homes, and they were there about 11 o'clock from the sting of any Bee of the hive.

We have the Henderson Corset in stock. You will like them. The Cummings store.

### SHOWER FOR MISS STREATOR.

Miss Etta Allen gave a miscellaneous shower at her home last Monday evening for Miss Bessie Streater. A two course luncheon was served, covers being laid for 12. Miss Streater has been one of our successful teachers in the public schools during the past two years, but resigns to accept a different position, where there will not be as many pupils. She was the recipient of many beautiful and useful gifts. The house was prettily decorated and the evening passed pleasantly for all concerned.

### BIG PUFF FOR MARTIAL BAND

The Berrien County Record of June 2, gives Cummings' and Bullard's martial band a great "Puff." The boys played there on Memorial day and as is their usual custom, made a big hit with all who heard them. "Dell" and "Billie" as is well known here played together during the civil war. There is no better band of its kind in the country, and its popularity is well known in many places.

We have the Henderson Corset in stock. You will like them. The Cummings store.

### LO CATED IN NEW HOME.

A letter from Dr. H. L. Charles asks to have The True Northerner sent to his new address at Rankin, Mich. He states that he is now nicely located there and that the prospects are flattering for a lucrative practice. The True Northerner joins his many Paw Paw friends in wishing him unbounded success and peace and happiness to himself and estimable family.

### WITH EVANS AROUND WORLD.

Frank Miller who has been in the U. S. Naval service for the past four years, finished his service, and is visiting his brother A. R. Miller and wife here. Mr. Miller was on the Kearsarge with Admiral Evans on the famous cruise around the world. A description of the trip, the various places visited, and the attention shown them on the trip, make an interesting story.

We have the Henderson Corset in stock. You will like them. The Cummings store.

### MR. AGNEW HERE WEDNESDAY.

H. E. Agnew of Downagie was a caller at The True Northerner office, Wednesday. Mr. Agnew was formerly editor and publisher of the Downagie Daily Republican, and is now with the Chamberlin Co., book binders and job printers. He had the misfortune to take a bad fall some time ago, and now gets about with the aid of a cane.

### BILL IS LIVE WIRE.

News from down St. Louis way indicates that the one live wire on the Browns of the American league is "Bill" Miller. Sport writers of that burg wonder if Manager O'Conner has equipped his team with silencers, for not a one of them ever lets loose a whoop of enthusiasm except the redoubtable Miller.

### JOHN WASN'T LOOKING.

Register of Deeds John Mutchler came home from Field day last Saturday with rather a bad eye. He says that politics had nothing to do with it, but that a ball thrown during the ball game caught him when he wasn't looking. Several witnesses to the affair vouch for the correctness of the story.

### COLORED DANCING PARTY.

Invitations are out for a colored dancing party at Longwell's opera house Tuesday evening, June 28. Good music is assured. Bill 50 cents. Spectators 15 cents.

### WITH THE PIONEERS.

Many Paw Paw people are in Hartford today to attend the annual meeting of the Van Buren County Pioneer association. A splendid program has been prepared, with Hon. Philip Colgrove as orator of the day. The Paw Paw baseball team will cross bats with the Hartford ball tossers this afternoon.

### RAISE IN SALARIES.

The new order fixing postmasters' salaries, which goes into effect July 1, 1910, effects the following offices in Van Buren county: Bangor raised from \$1630 to \$1700, Decatur from \$1600 to \$1700, Gobleville from \$1100 to \$1200, Hartford from \$1600 to \$1700, and Lawton from \$1500 to \$1600. Other offices in the county are not affected by the order.

### GOOD POSITION IN WEST.

Edwin Quatermass, who for the past three years has been with the Central Michigan Floral Co. of Kalamazoo, has resigned to accept a similar position in Portland, Ore. After spending several weeks with his sister, Mrs. L. B. Gordon, he will leave about July 1 to take up his new duties.

### GONE TO MINNEAPOLIS.

Herman Paige, who has made his home in Paw Paw with his aunt, Mrs. A. J. Savin, since the death of Mr. Savin, left Tuesday for Grand Rapids, where he expects to find employment. Mrs. Savin will leave today for Minneapolis for an indefinite stay.

### HAS ADDED GROCERIES.

Jake's market will henceforth not only be a meat market, but a grocery store as well. He has put in a new stock of nice groceries and asks for a share of the patronage in that line of business. Watch for his ad. next week telling about the details of the business.

### RECOVERED FROM STROKE.

J. C. Allen of Bloomingdale was in Paw Paw last Tuesday. Mr. Allen suffered a stroke of paralysis about a year ago, but his many friends are glad to know that he has nearly recovered from the same and is now enjoying good health.

### REGULAR MEETING R. A. M.

Regular convocation of Paw Paw chapter No. 34 R. A. M. next Friday evening, June 17. Work and important business to come before the chapter and there should be a large attendance at this meeting.

### WILL VISIT SON.

J. E. Potter and wife left Thursday for Zion, Dakota, where they will visit their son, Henry L. Potter, whom they have not seen for the past nine years. Mr. and Mrs. Potter expect to be away several months.

### AUTO BUSINESS GOOD.

Howard Cooper has been having an unprecedented sale of automobiles. On the trip west he sold 12 E. M. F. cars, and has now started to Texas with a carload which he expects to dispose of there.

### BOYS SURPRISED LEVI.

About 30 of the I. O. O. F. boys gave Levi Hadsell a pleasant surprise last Saturday evening, the occasion being his birthday. Refreshments were served, and Levi feels about 20 years younger.

Ackley's Saturday bargain. Ladies rib top black hose 8 cents per pair. At the Cummings store.

### Bangor.

Too late for last week.

Mrs. W. H. Hauke is in attendance at the Missionary convention in Benton Harbor.

Jessie Bigelow of Kalamazoo visited home friends for a few days, returning to school Tuesday.

Merritt Orton of Grand Rapids spent a few days with his parents.

Rev. Hunt delivered the Memorial and Baccalaureate addresses and Rev. Tench the Decoration day address three of the best sermons ever preached to Bangor audiences.

Mrs. Rena Heath is very much improved in health.

### The Bird's Tail.

To slight extent in some birds the tail may be used as a rudder, but where the wing is perfect turning is effected with a very scant tail. The use of the tail always has more reference to the up-and-down movements than to the lateral. It comes into play in alighting (as a brake), or in rising (as a kite-like surface), and is used dexterously by the soaring birds in balancing themselves against varying currents of air.—James Newton Baskett, in "Story of the Birds."

"It cured me," or "It saved the life of my child," are the expressions you hear every day about Chamberlain's Colic, Cholera and Diarrhoea Remedy. This is true the world over where this valuable remedy has been introduced. No other medicine in use for diarrhoea or bowel complaints has received such general approval. The secret of the success of Chamberlain's Colic, Cholera and Diarrhoea Remedy is that it cures. Sold by all dealers.

### Notice.

I am prepared to do all kinds of painting, papering and decorating. See me before letting contract. At the G. L. Bruner house. Phone 79.

1812

WILL BALDWIN.

### Village Taxes.

The village tax for 1910 is now due and payable at my office. If not paid before July 20th three per cent will be added.

WILLIAM KILLEFER,  
Village Treasurer

### GRUBS IN THE COW'S BACK

They Should Be Located and Removed, as Their Presence Causes Pain and Injury.

(By A. S. ALEXANDER, WISCONSIN COLLEGE OF AGRICULTURE.)  
The raised painful "bunches" noticeable upon the backs of cattle during the winter season and early spring months are due to large grubs or larvae, and are commonly termed "warbles."

The grubs are the product of eggs deposited by the ox warble fly (hypoderma lineata) during fly time in summer, and unless destroyed on removal from the backs of cattle, burrow into the earth and emerge after a time in the form of flies, to carry on their pestiferous work.

The old and apparently sensible idea of the life history of these grubs is that the parent fly deposits her eggs upon or just under the surface of the skin of the cow's back at a place where she can neither protect herself against the fly by licking with her tongue nor switching with her tail.

The eggs then hatch out and the young larvae, after penetrating the deeper layer of the skin, form a sac in the connective tissue, where they live and grow in a collection of inflammatory lymph.

This inflammatory fluid is caused by the irritation set up by the constant movement of the hard bristles protruding from the segments of the body of the grub.

An orifice will be found in the top of each warble and through it the grub obtains air while growing and makes its escape from the skin when fully matured in the spring.

Of recent years government investigators have published a different theory to the effect that the fly deposits its eggs upon the legs and heels of the animal, which licks them off and swallows them, whereupon the eggs hatch in the gullet and the young larvae penetrate its walls, find their way into the connective tissue and gradually burrow their way therein until they arrive at the one part of the body in which they are invariably found.

The latter theory is little credited by practical stockmen and veterinarians. If it is correct, how comes it that the grubs are found in but one part of the body? And that we do not come across them in their travels through the tissues?

Prevention of these pests is to be sought by applying fly repellents to the backs of the cattle during fly time and washing their backs with strong salt water during late fall; then each grub that matures should be squeezed out and destroyed.

The grub causes much misery to their living host and cause serious damage to the hide for the purposes of the tanner.

### PLAN FOR MILKPAIL HOLDER

While Using This Device There Is No Possibility of Cow Kicking Over the Pail.

From an exchange we get the plan for a milkpail holder as herewith illustrated. With this device there is no longer any danger of the cow kicking the milkpail over. The holder consists of a crossbar in two sections, which are adjustable relatively to each other and can be made to fit any pail. When the bar is joined the bent

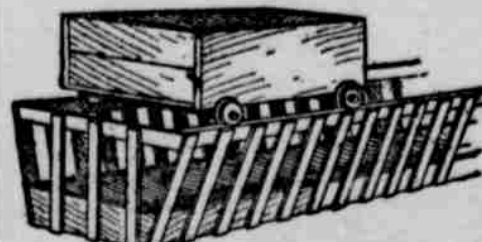

Milkpail Holder.

section encircles the rim of the pail and does not get in the way of the streams of milk, while clamp and hooks hold the receptacle to it. The milkman, or milkmaid, holds the pail between his or her knees, the crossbar bearing the weight, and is able to give all attention to the milking without keeping one eye on the near hoof.

### HANDY CARRIER FOR SILAGE

So Arranged That Feed May Be Raked Out Into Rack at Any Point Along Route.

My silo is built in one corner of the barn, and from here I have a track

Silage Wagon on Feed Rack.

that runs along the top of the feed rack, writes John B. Puller, in Farm and Home. On this track is mounted a silage wagon, which is loaded at the silo and then run along the top of the feed rack. The silage may be raked out into the feed rack at any point along the route. This carrier saves much labor, and is inexpensive.

### A GOOD RECOMMENDATION.

Miss Flint—I couldn't marry you. You have nothing to recommend you but your wealth.

Old Cash—Ah, you forget that I've heart disease.

### POET REPLIES TO AN ADMIRER.

"In response to your request, I beg to append my autograph, but have to reject your application for a lock of my hair."

**Dr. Bell's Antiseptic Salve**  
Good for all Skin Diseases.
